
Policy, Technical, Strategy liaison – Rebecca Clutten with respective chairs
Administration and Co-Ordination – Mark Barlow with respective chairs

- Whilst Scotland and Wales are to be called branches, Scotland in particular is more than branch. Having dialog between chairs is important to ensure policy and reform agendas (and any divergent matters) will be shared and picked up at an early stage.
- Without dictating the frequency of calls, it would be expected this to take place circa twice a year
- Matters can be fed back into reform or working groups as necessary
